Career Objective

A results-driven Senior Consultant with over 5 years of experience at the intersection of data, AI, and process optimization. My cum laude degree in Business Administration provides a strategic framework for my deep technical background, allowing me to translate complex business requirements into practical and scalable technical solutions. I specialize in developing on-premise AI systems and automating complex workflows. Committed to continuous innovation, I also actively coach colleagues in the practical application of AI.

Experience

Virelio – Artificial Intelligence Developer (Freelance)   *2025 – Present*
- Built 17 AI tools and 200+ automations for experimentation purposes and clients ranging from scale-ups to corporates.
- Shipped a data-private AI assistant indexing millions of files and answering in < 1s via Slack, Teams, and WebRTC voice.
- Built on-premise multi-agent frameworks connected to SharePoint, Jira, HubSpot, and e-commerce stacks through custom flows, noticeably reducing repetitive follow-up and manual work.

Ministry of Defence – Artificial Intelligence Developer   *2024 – Present*
- Led the development of the first fully private, on-prem AI tool 'DefGPT Pro' for 100,000+ employees.
- Significantly improved the LLM's capabilities by adding Multi-agent frameworks, MCP-servers, and RAG/knowledge base functionality, and by using OpenAI's most powerful on-premise tool.

Ministry of Defence – Data Consultant   *2024 – Present*
- Led daily stakeholder requirements interviews to identify stakeholders' priorities, translating their operational needs into 187 measurable KPIs.
- Gave multiple AI workshops to the analytics department, preparing them to be the first pilot group for the 'DefGPT Pro' tool.
- Developed 8 dashboards in Power BI and SAP that transform data into actionable intelligence, enabling evidence-based decision-making across departments, used by the Dutch House of Representatives and senior management.

Capgemini – Data Consultant   *2024 – Present*
- Hosted an "Advanced AI in Practice" workshop to 450 data scientists (AI Software development, RAG, Agentic AI, Data governance).

Road – Data Analyst   *2022 – 2024*
- Partnered with departments to assess analytical needs and delivered customized dashboards and data insights within the Google ecosystem (Looker, BigQuery, and Google Sheets), ensuring ready-to-interpret visuals for effective decision-making.
- Consulted on market trends, KPIs, and competitor performance, presenting data-driven insights to support board-level decision-making.

Quotum Consultancy - Founder   *2021 – 2024*
- Built and ran a crypto-focused full stack financial data data platform serving 160 paying members, covering on-chain, derivatives and macro data for informed decision-making.

SBB – Traineeship Process Management   *2020 - 2021*
- Streamlined construction project workflows, saving project costs and reduced rework and clearer documentation.
- Interview stakeholders and Introduced a standardised documentation system that improved cross-team collaboration and information clarity

Education

BSc Business Administration – Amsterdam University of Applied Sciences   *2018-2023*
- Achieved a Cum Laude distinction in my Bachelor's degree, maintaining a GPA of 8.0 and earning my Propedeuse certificate within the first year.

Minor Business Process Analytics Management   *2021-2022*
- Served as the Head of R&D Analytics department at the Amsterdam University of Applied Sciences' Business Campus.

Study Association Nostro - Chairman social media committee (Management)   *2021-2022*
- Directed a team of 5 in driving engagement across digital platforms, resulting in a surge to 90,000 annual website visits and a 30% growth in online community interaction

Professional Development & Continuing Education

Mutual Fund Investment Club Amsterdam   *2022-2024*
- Secured first place in a national ROI competition in the Netherlands

Certifications
- Deep Learning Specialization – Stanford School of Engineering / DeeplearningAI, 2025
- Power BI Data Analyst (PL-300) – Microsoft, 2025
- Business Requirements Analysis – Capgemini, 2025
- Advanced Data Modeling – Capgemini, 2024
- Dimensional Data Modeling | Advanced – Capgemini, 2024
- Structured Query Language (SQL) | Advanced – DataCamp, 2024
- Lean Six Sigma Master Black Belt – LinkedIn, 2022
