Career Objectives

Cum Laude Business Administration graduate with a strong background in data analysis, project management, and process optimization. Proven ability to leverage data-driven insights, enhance operational efficiency, and drive successful project outcomes. Seeking to apply my analytical, problem-solving, and leadership skills to contribute to a dynamic organization and achieve measurable business results.

Experience

Road – Business Analyst   2023 – Current
- Collaborated with key stakeholders across the Board, Sales, Marketing, and Finance departments to identify and address critical business questions, translating insights into actionable recommendations that drove informed decision-making.
- Developed and presented self-service BI dashboards (Looker, SQL, BigQuery), creating a culture of data-driven insights across departments.
- Proficient in SQL, Python, and machine learning, with a demonstrated ability to uncover hidden patterns and trends in data to inform strategic initiatives.

Road – Traineeship Process management   2022 – 2023
- Analyzed customer support data and key performance indicators to identify process bottlenecks and areas for improvement, contributing to a 13% increase in overall customer support satisfaction within a year.

SBB – Traineeship Process management   2021 – 2022
- Streamlined construction project workflows and eliminated redundancies, resulting in improved team efficiency and cost savings exceeding €40,000.
- Developed a standardized documentation system, enhancing communication and collaboration among project stakeholders.

Education

Hogeschool van Amsterdam, Business Administration - Bachelor   2018 – 2023
- Achieved a Cum Laude distinction in my Bachelor's degree, maintaining a GPA of 8.0 and earning my Propedeuse certificate within the first year.

Minor, Hogeschool van Amsterdam, Business Process Analytics Management   2021 – 2022
- Completed the program with a GPA of 9.0, covering courses in Data Analytics.
- Served as the Head of SAP R&D at the Amsterdam University of Applied Sciences' Business Campus.

Professional Development & Continuing Education

Advanced SQL – DataCamp
- Advanced proficiency in SQL, focusing on complex queries and database management for business intelligence and data analysis.

Mutual Fund Investment Club   2022-2024
- Secured first place in a national ROI competition in the Netherlands, showcasing top-tier investment strategies. Actively manage and review a diverse portfolio of stocks and bonds, refining analytical skills through regular team evaluations. Conducted in-depth research and analysis to actively manage a diversified portfolio of stocks and bonds, optimizing performance through regular team collaboration and review.

Study Association Nostro - Chairman social media committee (Management)   2021-2022
- Directed a team of 5 in driving engagement across digital platforms, resulting in a surge to 90,000 annual website visits and a 30% growth in online community interaction.

Lean Six Sigma: Green Belt   2022- 2023
